☕ Local Coffeehouse Owner

Your Complete Coffee Shop Management Solution

Run your coffee shop from anywhere with our powerful, easy-to-use mobile app. Available for iOS and Android, designed specifically for independent coffee shop owners.

📊 Real-Time Dashboard

Monitor today's orders, pending items, weekly revenue, and your most popular products at a glance.

📋 Order Management

Process takeout and delivery orders with real-time updates. Audio alerts keep you notified of new orders.

🍵 Full Menu Control

Create and customize menu items, categories, sizes, flavors, creamers, sweeteners, and more.

🚗 Delivery Support

Enable delivery service, manage drivers, set delivery zones, and track all deliveries in one place.

⏰ Flexible Hours

Set store hours, drive-thru hours, and delivery hours. Quick open/close toggle for any situation.

👥 Team Management

Add staff with different roles: admins, cashiers, and delivery drivers. Share access with invite codes.

💳 Multiple Payment Options

Use the honor system for order-ahead pickup, or integrate secure Stripe payments. Works with your preferred payment method.

🔔 Push Notifications

Instant alerts for new orders with customizable sounds. Never miss an order again.

📈 Bookkeeping

Track sales, view financial summaries, and export reports for easy accounting.

🏪 Shop Profile

Manage your shop's details, photos, location, and contact information visible to customers.
